

A GUIDE TO ORGANIZING FORAKER COURSES IN YOUR COMMUNITY

CO-HOST

- We want to integrate Foraker courses into an event we are hosting
- We want to take the lead in outreach and communication
- We want to be the sponsor and pay for the experience for others
- We have the capacity to manage event logistics
- We want a customized curriculum

COLLABORATOR

- We want more training opportunities in our community
- We want each person to pay for their own registration fee
- We do not need a customized training - Foraker can teach existing course offerings as listed on their website
- We do not want to manage logistics
